

Abdul Rehman

Frontend Web Developer

Self-taught React.js enthusiast with hands-on experience building and deploying responsive web demos. Passionate about clean, modular code, user-centered design, and continuous learning. Seeking a React.js intern/junior role to apply my React, JavaScript (ES6+), and CSS skills in a collaborative environment.

WORK EXPERIENCE

Independent Frontend Projects (Self-directed) -Lahore

07/2025 - Present

Lahore

- Built and published 5+ demos: A Food Delivery App, Tic-Tac-Toe game, a Hotel Management System.
- Integrated Tailwind utility classes to deliver responsive UIs; implement Redux Toolkit for state management where appropriate.
- Deployed to Netlify/Vercel; maintained version control via GitHub.

Frontend Developer (Internship) Infirix.io technologies

11/2024 - 02/2025

Lahore

- Developed responsive frontend interfaces using **React.js**, **SCSS** and component libraries.
- Participated in agile workflows and contributed to real world projects for international clients.
- 4-months paid internship; left due to personal reasons (short-term role).

Contact : Waqar Ahmed (CEO) - 03162082420

PROJECTS (SELF-DIRECTED)

Portfolio Website

- A personal portfolio showcasing my skills, projects, and contact info — designed with **React** and **Tailwind CSS**.

Food Delivery App

- An interactive food ordering platform built with **React** and **Tailwind CSS**, featuring cart functionality and responsive design.

Tic Tac Toe Game

- A modern take on the classic game built with **React.js** and **CSS**.
- used **React Context API** for efficient state management, delivering a responsive and interactive two-player experience.

Prescripto-Doctors-app (frontend-only, React-based).

- UI for a doctor's portal enabling patient appointment and prescription management
- used **React Context API** for efficient state management, a responsive and interactive UI.

Hotel Management System

- A mini hotel booking solution developed with **HTML5**, **CSS3**, and **Bootstrap 5**.
- it's management platform where all hotels can manage their bookings, cash & cashier details, guest's detail & data by signup/login their Id.
